FINAL DISTRIBUTION IN COPIAPÓ.

Message from Rotarian Óscar Vega Gutiérrez (El Salvador Rotary Club):

Here are the photos of the delivery of WSBs made in Diego de Almagro on Friday, June 10, 2017, to families affected by the flooding and landslides in the locality. They were very grateful to Rotary and we even created some ties with people interested in refloating the Club in Diego de Almagro.

In addition, I'd like to comment that this Saturday we will go together with Carabineros the Chile and the Union of Neighbors Councils from El Salvador, to the Agua Dulce sector (road to Potrerillos), where we will carry out a social operation, named "Seagull Mission 10", with 13 families of the Colla community, which were also affected by the rains. On the occasion we will provide WSB's and other contributions, will carry out hairdressing, repairs of ceilings, works of painting in houses, acts of dances with folk groups and also a prayer to The Pachamama (Spirit of the Earth) which is a traditional ceremony of the Collas. Obviously I will send the photos to you.

Here's the translation of the news:

The two Rotary clubs of Copiapó successfully closed the cycle of international aid that came to families affected by the rains and floods of our region yesterday, delivering 12 backpacks with school supplies - from England - to an equal number of Students of the Luis Cruz Martínez School, located in the sector of Placilla Morales.

In addition, Rotarians delivered several boxes with dental brushes, masks and porous patches, which were received on behalf of the Director of the Educational Unit by Inspector General Luis López Cepeda.

The Rotary delegation that visited the Luis Cruz Martínez School was headed by the President of the Rotary Club Copiapó and Rotary Club Copiapó Oriente, Lezme Contreras Avalos and Eduardo Nelson Lavín, respectively; By former District Governor Luis Véliz Severino; The President of the District Public Picture Committee, Héctor Naveas Olgún and the Rotarian Mario Oviedo, the latter who is also a support professional in this same educational establishment.
